Practically no Cattle Offered-Market Steady.

The hog market yesterday was steady, with a light run. No especial features marked a day of dull trading. The quality of the offerings was an improvement over the day before. Friday's receipts of hogs were very poor, in fact, the most to for many weeks. Saturday, however, showed a marked up grade of the offerlags, though still far short of being prime stuff, or more than good. One or two loads were runty, coarse and common; and oven the best loads offered had mixed stock in aundance. The quality in most cases has been so inferior for the past week that any improvement is noticeable and welcome The wagon stuff coming in yesterday was especially better, and with perhaps two or three exceptions, was all very fair. This also was the case in a few of the car lots. The run was very light, but considering it was Saturday, it was not unexpected. Saturdays and Mondays are usually light days, though last Monnot unexpected. For the week this year the record is a total of 5,339, as compared with 2,994 for the same week last year, a gain of 2,345. The Wichita market stands well up in the front when compared with any other point. The slight decline has invariably been in sympathy with conditions everywhere prevalent, and the universal mment among the shippers is very satisfactory.
